1. INTRODUCTION

This manual was written as a resource for Exchange Visitor Program Sponsor users, that is, Responsible Officers (ROs) and Alternate Responsible Officers (AROs) of the Student and Exchange Visitor Information System (SEVIS). It is presented in two separate volumes in order to delineate the Form DS-2019, and Form DS-3036, DS-3037, and other program updates. This volume addresses the procedures for creating, issuing, and modifying Forms DS-2019 for exchange visitors (EVs) and dependents. This user manual reflects the changes to SEVIS effective with Release 5.2.

1.2 Purpose of SEVIS

SEVIS facilitates timely reporting and monitoring of international students, EVs, and their dependents in the United States. SEVIS is an Internet-based application for electronically monitoring and reporting on these individuals. SEVIS enables program sponsors and schools to transmit electronic information to the Immigration and Customs Enforcement (ICE) bureau and the Department of State (DoS) throughout a student's or EV's program in the United States.

SEVIS enables the submission of designation applications. Once designated as an Exchange Visitor Program sponsor, users may update program sponsor information, submit updates to DoS that require approval, and create and update J-1 EV and J-2 dependent records (that is, accompanying spouse and dependent children records). The DoS Office of Exchange Coordination and Designation has the capability to review and approve updates made to program sponsor and EV records using SEVIS, and ROs and AROs will be notified via email of the results.

This manual contains instructions for accessing SEVIS with a permanent user identification (ID) and password; creating and processing Forms DS-2019, Certificate of Eligibility for Exchange Visitor (J-1) Status; viewing alerts on EVs; and viewing and printing a variety of reports.

Once a program sponsor has been authorized to use SEVIS, all Forms DS-2019 must be created in and issued from SEVIS. Once an EV's data are entered in SEVIS, program sponsor officials must update the EV's record and report on the events as required by the regulations. See 22 CFR 62, Subpart F, of the Exchange Visitor Program regulations for a detailed explanation.

1.3 Privacy Act Considerations

Access to SEVIS is restricted to authorized users. SEVIS contains confidential information concerning international students, EVs, and their dependents. Unauthorized access to and disclosure of this information could affect the privacy to which individuals are entitled under Section 552a of Title 5, U.S. Code. This information is protected by the Privacy Act, as well as by Federal and agency regulations. Exhibit 1, Criminal Penalties, provides information on the penalties for unauthorized access and disclosure of this information.

Exhibit 1: Criminal Penalties

Criminal Penalties

- (1) Any officer or employee of an agency, who by virtue of employment or official position, has possession of, or access to, agency records which contain individually identifiable information, the disclosure of which is prohibited by U.S. Code Section 552a or by rules or regulations established thereunder, and who knowing that disclosure of the specific material is so prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000.
- (2) Any officer or employee of any agency who willfully maintains a system of records without meeting the requirement to publish a notice in the Federal Register regarding the existence and character of the system of records, shall be guilty of a misdemeanor and fined not more than \$5,000.
- (3) Any person who knowingly and willfully requests or obtains any record concerning an individual from an agency under false pretenses shall be guilty of a misdemeanor and fined not more than \$5,000.

1.4 Security Reminder

SEVIS was developed to maintain multiple levels of security in both the real-time and batch systems to help protect against unauthorized access. One of the most important actions that you can take is to safeguard your user ID and password. Your SEVIS user ID and password are intended for your use only. Do not share your user ID and password with any other person and do not keep a written record of your user ID and/or password in a location that can be accessed by others. For program sponsor officials, the Exchange Visitor Program regulations (22 CFR 62.71(b) and 62.79(a)(3)) specifically address this issue.

If you suspect that your password has been compromised, you can reset it using the **Change Password** or **Request Password Reset** link on the *SEVIS Login* screen located at <https://egov.immigration.gov/sevis/>. Alternatively, you can contact the SEVIS Help Desk at 1-800-892-4829 to have your password reset.

If you believe that an unauthorized person has obtained access to international student or exchange visitor data in one of your internal systems (e.g., local batch system) or if you believe an unauthorized person has gained access to SEVIS, please notify the Department of Homeland Security (DHS) Help Desk immediately at 1-888-347-7762. The DHS Help Desk is staffed 24 hours a day and can assist with security concerns only. All other SEVIS concerns or questions

should still be directed to the SEVIS Help Desk at 1-800-892-4829. When calling the DHS Help Desk to report a security concern, it will be helpful to have the name(s) and contact information for the Principal Designated School Official/Designated School Official (PDSO/DSO), RO/ARO, and school or program technical and security contacts, as appropriate.

The DHS Help Desk will contact the Student and Exchange Visitor Program (SEVP) office immediately. SEVP will work with you to take appropriate steps to protect and prevent loss of SEVIS information. Such actions to be taken may include issuing new SEVIS user IDs and passwords as well as loading new security certificates for the SEVIS batch upload process, if applicable. Additionally, school and sponsor officials who believe that their internal systems may have been compromised should follow their local formal security procedures.

System security is a serious matter. SEVP is committed to addressing any system security concerns or issues that may arise.

If you need assistance, please contact the DHS Help Desk at 1-888-347-7762.

2.2.1 Guidelines for Passwords

The email you receive from SEVIS when approved to use the system, and the Online Help, provide the specific requirements for SEVIS passwords. General guidelines for SEVIS passwords are as follows:

- You cannot reuse your previous six passwords.
- SEVIS passwords have a maximum life span of 90 days. When logging into SEVIS after 90 days, the system automatically displays the *Change Password* screen. See Section 2.2.1.1, *Change Password Every 90 Days*, for instructions.
- Protect your password. If you suspect that your password has been compromised and you are unable to change it using the **Change Password** link or the **Request Password Reset** link, contact the SEVIS Help Desk (1-800-892-4829) to have your password reset.
- SEVIS user IDs and passwords are suspended after three unsuccessful log-in attempts. Use the **Request Password Reset** link (see Section 2.2.1.3, *Request Password Reset*, for instructions) on the *SEVIS Login* screen or contact the SEVIS Help Desk (1-800-892-4829) to have your access to SEVIS reinstated.

- Do not share your SEVIS user ID and password. At no time and under no circumstances is your SEVIS user ID and password to be shared with anyone, either on a transitory or permanent basis.

2.2.1.1 *Change Password Every 90 Days*

2.5 Creating an Exchange Visitor Form DS-2019

The eligibility process enables designated program sponsors to create, maintain, and print records (Form DS-2019) for EVs and dependents. In addition, SEVIS provides the capability to access and update previously created records.

When logging into SEVIS, the system displays the *Paperwork Reduction Act* screen, which contains important information about the system. The next screen that displays includes the list of programs associated with the user's ID. Exhibit 12, Listing of Programs Screen—New Exchange Visitor Link, is an example of the screen that displays when an RO or ARO logs into the system. The screen also shows the location of the **New Exchange Visitor** link on the *Listing of Programs* screen.

ROs and AROs have the option to create a “New Exchange Visitor” (complete Form DS-2019 for an EV and dependents, if any) for any of the programs for which they are assigned a role. Instructions for completing the Form are provided in the subsequent sections.

Note: One RO or ARO may begin and save a Form DS-2019 for an EV. Another RO or ARO may complete and submit the Form. The name of the official who submits and prints the record from SEVIS will print on the Form DS-2019.

Note: If the spouse or child dependent plans to enter the United States on another type of visa, do not enter his or her information in SEVIS.

Note: If both a husband and wife are entering the United States on J-1 visas, add the dependent child's information to only one SEVIS record (Form DS-2019). Do not add the dependent child's information to both parents' records/Forms. Doing so will give the dependent child two SEVIS records.

Exhibit 17, Exchange Visitor Dependents Menu, is an example of Page 3 of the Form. In Exhibit 17, a dependent has already been added for this EV. Because the record is still in Draft status, the EV and dependent have not been assigned their SEVIS IDs.

2.5.5 Submit the Form DS-2019

To submit an EV's record to SEVIS, click the **Submit DS-2019** button on the *Financial Information* screen, the last page of the electronic Form DS-2019. The system will display a message stating that the record has been successfully created. This message screen will also show the first and last name and the SEVIS ID for the EV and each dependent.

Note: If the submission is not successful, an error message will display stating the reason. Correct the error(s) indicated and then submit the Form again.

When the Form is successfully submitted, print a final copy of the Form DS-2019 for the EV and dependents, if any. See Section 2.5.6, Print a Draft or Final Form DS-2019, for instructions. Click the **Return** button to go to the *Listing of Programs* screen.

Note: The purpose that prints on the Form will be "Begin New Program; accompanied by number (*count*) of immediate family members," where "count" indicates how many dependents an EV has, if any.

2.5.6 Print a Draft or Final Form DS-2019

A draft copy of the Form DS-2019 may be printed from various screens within SEVIS and a final Form DS-2019 may be printed following submission of the Form in SEVIS. A draft copy of the SEVIS Form DS-2019 is identified by the word "draft" printed on the top of the Form. The SEVIS ID for the EV and/or dependent(s) and bar code **will not** be printed on the draft Form. The draft Form DS-2019 may be printed prior to submission of the Form so that the data may be reviewed for accuracy. Changes to the Form may be made prior to submission. When

the Form DS-2019 for a new EV and/or dependent(s) is submitted in SEVIS, the status of the records for the EV and dependent(s) will change from Draft to Initial status.

A final Form DS-2019 should be printed for a new EV following submission of the Form in SEVIS. The final Form includes the bar code and SEVIS ID, and “draft” is removed from the top of the Form. The final SEVIS-generated Form DS-2019 should be signed in **blue** ink and given to the EV and dependents, if any. See Section 2.5.7, Signature on SEVIS Form DS-2019, for instructions regarding the signature on the Form.

Note: The printed Form will have the EV’s or dependent’s SEVIS ID in the upper-right corner, above the bar code. It begins with the letter “N,” which is followed by 10 digits (for example, **N0123456789**).

Note: See Section 2.6.2.3.4, Reprint Form DS-2019 for a Dependent (EV in Initial Status), for instructions on reprinting the Form for dependents.

Note: If you do not already have Adobe Acrobat Version 5.0 or higher installed on your computer, see Appendix B, Download the Latest Version of Adobe Acrobat Reader, for instructions.

To print a copy of the Form DS-2019 for an EV, perform the following:

1. Click the **Print Draft DS-2019** or the **Print Final DS-2019** button. A new browser window opens and the Form DS-2019 displays using Adobe Acrobat from which a copy of the Form may be sent to a designated printer.

Note: During the launch of Adobe Acrobat, a *File Download* window may display. To prevent this window from displaying in the future, click the box next to **always ask before opening this type of file** to remove the check mark. Select the **Open** button to view the Form DS-2019.

2. When the Form DS-2019 displays in the *Adobe Acrobat* window, use the scroll bar on the right side of the window to view additional pages of the Form.
3. Click the **Print**  button on the Adobe Acrobat toolbar. The *Print* window displays.
4. Ensure that the name of the printer is listed in the **Name** field in the *Print* window. If it does not show the correct printer, click the down arrow to the right of the field and select the correct printer.
5. Click **OK** and the Form DS-2019 will be printed on the designated printer.
6. Click the **Close**  button on the *Adobe Acrobat* window to close the window.

Note: If an EV is subject to the Two-Year Home-Country Physical-Presence requirement (Section 212(e) of the of the Immigration and Nationality Act and PL-94-484, as amended), the appropriate boxes will be checked in the section below Section 8 on the printed Form DS-2019.

2.5.7 Signature on SEVIS Form DS-2019

According to regulations, SEVIS-generated Forms DS-2019 should be printed in **black** ink and the original copy of the Form DS-2019 must be signed in **blue** ink. Signing the Form in **blue** ink permits anyone viewing the Form to easily distinguish an original copy from a photocopy.

Note: The Form **must** be signed by the RO or ARO whose name is printed on the copy of the Form that will be provided to the EV and dependents, if any.

Do not send copies of the SEVIS Forms DS-2019 to DoS. There is no longer a need to send a copy of the Form DS-2019 to the Department. SEVIS electronically collects and maintains information submitted to generate Forms DS-2019 issued to potential EVs and their dependents.

2.5.8 Reprint a Form DS-2019

When an EV and/or dependent is in Active status, his or her Form DS-2019 may be reprinted for the following reasons: **lost, stolen, damaged, or other.**

When an EV and/or dependent is in Initial status, his or her Form DS-2019 may be reprinted for the following reasons:

- Permit EV's (*count*) dependents to enter United States separately (where "count" is the number of dependents for the selected EV).
- Begin new program; accompanied by number (*count*) of immediate family members (where "count" is the number of dependents for the selected EV).
- Other—Text that is entered in the **If Other, Please Comment** text box prints in the "Purpose of the Form" section of the Form DS-2019.

Note: If you do not already have Adobe Acrobat Version 5.0 or higher installed on your computer, see Appendix B, Download the Latest Version of Adobe Acrobat Reader, for instructions.

To reprint a Form, perform the following:

1. On the *Exchange Visitor Information* screen (see Exhibit 20, Exchange Visitor Information Screen—Initial Status, or Exhibit 24, Exchange Visitor Information Screen—Active Status) or the *Exchange Visitor Information/Dependent Information* screen, click the **Reprint DS-2019** link on the **Actions** menu (left side of screen). The *Reprint DS-2019* screen displays.
2. Select the appropriate reason for reprinting the Form. If **Other** is selected, enter an explanation in the text box provided. For example, if reprinting the Form for a participant in Initial status because the first attempt to print failed, select **Other** as the reason and enter the following comment in the **If Other, Please Comment** text box, "Begin New Program."
3. Enter optional comments in the **Remarks** text box.
4. Click the **Reprint DS-2019** button. A message displays stating that the update has been successful (the reason for reprinting the Form was saved to SEVIS).

5. Click the **Print Final DS-2019** button. A new browser window opens and the Form DS-2019 displays using the Adobe Acrobat from which a copy of the Form may be sent to a designated printer.
Note: During the launch of Adobe Acrobat, a *File Download* window may display. To prevent this window from displaying in the future, click in the box next to **always ask before opening this type of file** to remove the check mark. Click the **Open** button to view the Form DS-2019.
6. When the Form DS-2019 displays in the *Adobe Acrobat* window, use the scroll bar on the right side of the window to view additional pages of the Form.
7. Click the **Print** () button on the Adobe Acrobat toolbar. The *Print* window displays.
8. Ensure the name of the printer in the **Name** field is the printer from which the Form will print. If it does not show the correct printer, click the down arrow to the right of the field and select the correct printer.
9. Click **OK** and the Form DS-2019 will be printed on the designated printer.
10. Click the **Close** () button on the *Adobe Acrobat* window to close the window.

Note: The Form DS-2019 must be signed in **blue** ink by the program sponsor official whose name is printed on the Form.

Note: If an EV is subject to the Two-Year Home-Country Physical-Presence requirement (Section 212(e) of the of the Immigration and Nationality Act and PL-94-484, as amended), the appropriate boxes will be checked in the section below Section 8 on the printed Form DS-2019.

2.6 Exchange Visitor Information Screen—Initial Status

The *Exchange Visitor Information* screen provides a snapshot of the information that has been entered on the Form DS-2019. On the left side of the screen there are links to the actions available for EVs whose records are in Initial status. Exhibit 20, Exchange Visitor Information Screen—Initial Status, is an example of the screen.

Note: Initial status indicates that the EV and/or dependent records have been created and submitted (saved to the SEVIS database) but the EV has not entered the United States or has not reported to the program sponsor and been validated in SEVIS. Validation is the process of updating the record to show that the EV has actually arrived at the site of activity in the United States identified by the program sponsor and is participating in his or her program.

The links on the **Actions** menu (left side of screen) provide the capability to amend the EV's program, validate the EV's participation, reprint the EV's Form DS-2019, and perform other processes on the record of an EV. The options on the **Edits** menu provide the capability to edit the EV's and/or dependent's data. The menu options are discussed in detail in the following sections.

2.6.1 Actions Menu—EV in Initial Status

When an EV is in Initial status, the **Actions Menu** contains the following five options:

- Amend Program
- Cancel EV
- No Show
- Reprint DS-2019
- Validate Program Participation

The following sections contain detailed instructions for using each of these options.

2.6.1.1 Amend Program (EV in Initial Status)

The **Amend Program** link is available to update an EV's program start date and/or end date at any time prior to validation of the record in SEVIS.

Note: If an EV will be arriving late, his or her program begin date must be amended before validating his or her participation in SEVIS.

To amend an EV's program, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Amend Program** link on the *Exchange Visitor Information Screen—Initial Status* (see Exhibit 20). The system displays the *Amend Program* screen, which contains summary data for the selected EV, including the program begin and end dates.
3. Change the program begin and/or end date(s).
4. Enter an explanation in the **Remarks** text box; this is a required field.
5. Click the **Amend Program** button to save the changes to the SEVIS database.
6. On the message screen, click the **Print Final DS-2019** button to print an updated copy of the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. See Section 2.5.6, *Print a Draft or Final Form DS-2019*, for printing instructions.
7. Click the **Return to Exchange Visitor** button to return to the *Exchange Visitor Information* screen and view the new data.

2.6.1.2 No Show (EV in Initial Status)

The No Show status is used to indicate that the EV's program participation has not been validated in SEVIS. When an EV's status is No Show, the EV **has violated** the Exchange Visitor Program regulations. This has an **adverse**, or **negative**, affect on the EV's record, and on the record of each dependent of the EV. EVs with a SEVIS status of No Show have no benefits (for example, extension, change of category, or reinstatement).

If a program sponsor receives information about a potential EV participant who has entered the United States but has not reported for participation, the RO or ARO may set the EV's status to No Show or allow the system to automatically change the status of the EV to No Show.

SEVIS will automatically change the EV's status to No Show for either of the following reasons:

- The EV has entered the United States through a POE and has not reported to the program sponsor and has not been validated in SEVIS within 30 days after the program begin date listed in SEVIS.
- In a transfer situation, the EV has not been validated in SEVIS 30 days after the effective date of transfer identified in SEVIS.

The No Show option is only available when the EV is in Initial status. The **No Show** link is not available when the EV is in Transferred status.

WARNING: DO NOT use the No Show option to cancel a duplicate record or a record that has been issued in error. Use the Cancel EV option; otherwise, duplicate records will be canceled automatically by the system.

Perform the following steps to set the EV's status to No Show:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **No Show** link on the **Actions** menu. The system displays the *No Show* screen.
3. Review the data to ensure this is the potential EV participant whose status is being changed to No Show.
4. If this is not the correct record, click the **Cancel** button. Otherwise, click the **No Show** button. The system displays a message stating that the record has been successfully updated.
5. Click the **Return to Exchange Visitor** button to view the EV's record. The EV and dependents, if any, now have a status of No Show.

2.6.1.3 Reprint Form DS-2019 (EV in Initial Status)

See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.

2.6.1.4 Cancel Exchange Visitor (EV in Initial Status)

The Cancel EV option is available only when the EV is in Initial status. Examples of when to use this option include:

- The EV has duplicate records that you wish to delete from SEVIS.
- You have learned that the EV is not coming to your program for reasons such as the inability to obtain a visa, personal issues, etc.
- You have knowledge that the EV has used fraudulent documents to enroll in your program.

To cancel an EV, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Cancel EV** link (left side of screen) to access the *Cancel EV* screen.
3. Enter an explanation in the **Remarks** text box; this is a required field.
4. Click the **Cancel EV** button. The system displays a message stating that the EV's record has been canceled; the status of the EV and any dependents is Invalid. Otherwise, click the **Reset Values** button to clear the information in the **Remarks** text box or click the **Cancel** button to return to the list of EVs and dependents without canceling this EV.

Note: When an EV's record is canceled, the system increases the allotment of Forms DS-2019 available to the program by one.

2.6.1.5 Validate Program Participation (EV in Initial Status)

When an EV arrives in the United States to begin his or her program, the SEVIS record (Form DS-2019) must be validated. The status of a new (initial) EV will remain Initial until his or her program participation is validated in SEVIS.

Note: Failure to validate the EV's SEVIS record to indicate his or her participation within 30 days of the program start date listed in SEVIS will result in cancellation of the EV's record in SEVIS, as stipulated in the Exchange Visitor Program regulations. The EV's SEVIS status will automatically change to:

- No Show if the EV has entered the country through a POE
- Invalid if the EV used the Form DS-2019 to obtain a visa but did not enter the United States

Note: If an EV arrives at a time that is different from the program start date listed in SEVIS, his or her program begin date must be amended before validating the EV's program participation (see Section 2.6.1.1, Amend Program (EV in Initial Status), for instructions).

Note: Once validated, the EV's program begin date cannot be changed. If necessary, change the EV's begin date by amending his or her program (see Section 2.6.1.1, Amend Program (EV in Initial Status), for instructions). Then, validate the EV's participation in your program.

To validate an EV's program participation, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose program participation is being validated (perform a search for the record or use the **EV Lists** link).
2. Click the **Validate Program Participation** link on the **Actions** menu (left side of screen) to access the *Validate Program* screen. Exhibit 21, Validate Program Screen, is an example of this screen.

2.6.2 Edits Menu—EV in Initial Status

The **Edits Menu** contains the following options:

- Biographical Information
- Category and Subject/Field
- Dependents
- Financial Information
- Site of Activity

The following sections contain detailed instructions for using each option.

2.6.2.1 Edit Category and Subject/Field (EV in Initial Status)

The Category and Subject/Field option is only available when the EV is in Initial status. Using this link, the EV's category and/or Subject/Field of study may be modified prior to the EV obtaining a visa.

Note: Under Regulation 8 CFR 214.5, an EV from a country on the restricted country list may not engage in or seek to obtain training in aviation maintenance, flight training or operations, or nuclear-related studies or training. Therefore, you may not create or update an EV's personal or program information as follows:

- If an EV's COB or COC is on the restricted country list, you may not select or update his or her field of study to training in aviation maintenance, flight training or operations, or nuclear-related studies or training.
- If an EV's field of study is in aviation maintenance, flight training or operations, or nuclear-related studies or training, you may not select or update his or her COB or COC to a country that is on the restricted country list.

To modify these data, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose information is being changed (perform a search for the record or use the **EV Lists** link).
2. Click the **Category and Subject/Field** link on the **Edits** menu. Exhibit 22, Category and Subject/Field Screen, is an example of the screen that displays.

Note: The purpose that will print on the Form will be, "Begin New Program - Category/Subject/Field Modified."

2.6.2.2 Edit Biographical Information and U.S. Address (EV in Initial Status)

The Biographical Information option provides access the *Edit Biographical Information* screen for the selected EV, which is used to modify his or her biographical data and/or U.S. address. In accordance with the regulations (22 CFR 62.70(b), an RO or ARO must update the actual and current U.S. address information within 21 days of being notified by a participant of a change in his or her address.

Note: The Biographical Information option is not available after a visa has been issued to the EV. To edit the biographical data after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS.

To edit the EV's personal data, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose information is being changed (perform a search for the record or use the **EV Lists** link).
2. Click the **Biographical Information** link on the **Edits** menu. The *Biographical Information* screen displays.
3. Make the necessary updates to the EV's biographical information. For detailed instructions on how to complete this screen, see Section 2.5.1, Complete Page 1 of the Form DS-2019—Personal Information.

Note: Under Regulation 8 CFR 214.5, an EV from a country on the restricted country list may not engage in or seek to obtain training in aviation maintenance, flight training or operations, or nuclear-related studies or training. Therefore, you may not create or update an EV's personal or program information as follows:

- If an EV's COB or COC is on the restricted country list, you may not select or update his or her field of study to training in aviation maintenance, flight training or operations, or nuclear-related studies or training.
 - If an EV's field of study is in aviation maintenance, flight training or operations, or nuclear-related studies or training, you may not select or update his or her COB or COC to a country that is on the restricted country list.
4. Click the **Update Information** button to save the changes. The system displays a message stating that the record has been successfully updated.
 5. Click the **Print Final DS-2019** button to print a new Form, sign it in **blue** ink, and provide it to the EV and dependents, if any.

Note: When the EV is in Initial status and his or her biographical data are updated, the purpose that will print on the Form will be, "Begin New Program—Biographical Information Modified."

2.6.2.3 Edit Dependent Data (EV in Initial Status)

The **Dependents** link on the *Exchange Visitor Information* screen for an EV in Initial status provides the capability to make the following additions, corrections, and/or updates to dependent records:

- Add dependents
- Delete dependents
- Edit dependent data
- Reprint the dependent's Form DS-2019
- Indicate that the dependent is a "no show"

The following sections contain detailed instructions for completing each of these processes.

2.6.2.3.1 ADD DEPENDENT (EV IN INITIAL STATUS)

Note: The Add Dependent option is not available after a visa has been issued to the EV. To add a dependent after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS. The dependent will have to travel to the United States at a later date to join the EV.

Note: If both a husband and wife are entering the United States on J-1 visas, add the dependent child's information to only one SEVIS record (Form DS-2019). Do not add the dependent child's information to both parents' records/Forms. Doing so will give the dependent child two SEVIS records.

To add a dependent to the record of an EV who is currently in Initial status, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose information is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Dependents** link on the **Edits** menu. The system displays the *Exchange Visitor Dependents Menu* screen.
3. Click the **Add Dependent** link near the bottom of the screen. The system displays the *Exchange Visitor Information—Add Dependent* screen.
4. An asterisk (*) precedes the fields that must be completed. To complete this screen, enter the following data:

Field	Description/Explanation

5. Click one of the following buttons:

Add Dependent	Click this button to complete the process. A message displays stating that the dependent has been successfully added. Click the Print Final DS-2019 button to print the dependent's Form. See Section 2.5.6, Print a Draft or Final Form DS-2019, for instructions.

Note the difference between permanent and temporary residence. For example, a French citizen who is teaching in Italy on a 1-year contract, and making application for a J visa from Italy, would not be considered an LPR of Italy.

6. Click one of the following buttons:

Submit Edit	Click this button to complete the process. The system displays a message stating that the update to the dependent's data has been successfully saved to SEVIS. 13. Click the **Close** () button on the *Adobe Acrobat* window to close the window.

2.6.2.3.5 NO SHOW—DEPENDENT

The status of the dependent may be set to No Show separately from the EV (see Section 2.6.1.2, No Show (EV in Initial Status), for an explanation of the No Show status). When a dependent's status is No Show, the dependent **has violated** the Exchange Visitor Program regulations. This has an **adverse**, or **negative**, affect on the dependent's record.

Note: Setting a dependent's status to No Show has no affect on the EV's record.

To change a dependent's status to No Show, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose dependent is being marked as "no show" (perform a search for the record or use the **EV Lists** link).

2. Click the **Dependents** link on the **Edits** menu. The system displays the *Exchange Visitor Dependents Menu* screen.
3. Click the dependent's SEVIS ID link (for example, **N0123456789**) to access the *Exchange Visitor Information—Dependent Information* screen.
4. Click the **No Show** link on the **Actions** menu to display the *No Show* screen.
5. Review the data to ensure that this is the dependent whose status is being changed to No Show.
6. If this is not the correct record, click the **Cancel** button. Otherwise, click the **No Show** button. The system displays the *Exchange Visitor Dependents Menu* screen and the dependent's status is No Show.

2.6.2.4 Edit Financial Information (EV in Initial Status)

Note: The Financial Information option is not available after a visa has been issued to the EV. To edit financial data after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS.

To edit an EV's financial data while the EV is in Initial status, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose data are being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Financial Information** link on the **Edits** menu. The system displays the *Edit Financial Information* screen.
3. Make the necessary updates. See Section 2.5.4, Complete Page 4 of the Form DS-2019—Financial Information, for detailed descriptions of each field and/or section on the screen.

Note: Financial data should reflect the amount of financial support provided to the EV for the duration of his or her program shown on all Forms DS-2019.

4. Click the **Update Information** button. A message displays stating that the data have been successfully updated.

2.6.2.5 Edit Site of Activity (EV in Initial Status)

Note: The Site of Activity option is not available after a visa has been issued to the EV. To edit a site of activity after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS.

To edit the site of activity information for an EV in Initial status, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose data are being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Site of Activity** link on the **Edits** menu. The system displays the *Site of Activity Menu* screen.

4. Make the necessary changes to the name and address for the site of activity.
5. Click the **Update Site of Activity** button. A message displays stating that the data have been successfully updated in SEVIS.
6. If the updated site of activity is the primary site of activity, print a copy of the Form DS-2019, sign it in **blue** ink, and provide it to the EV and dependents, if any. See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions.

2.6.2.6 Add Site of Activity (EV in Initial Status)

Note: The Site of Activity option is not available after a visa has been issued to the EV. To add a site of activity after the EV has obtained a visa and is still in Initial status, you must wait until the EV arrives in the United States and has his or her program participation validated in SEVIS.

All EVs must have at least one site of activity. However, multiple sites of activity may be added for an EV. To add a site of activity, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV for whom a site of activity is being added (perform a search for the record or use the **EV Lists** link).
2. Click the **Site of Activity** link on the **Edits** menu. The system displays the *Site of Activity Menu* screen.
3. Below is a brief description or explanation of the fields on this screen. An asterisk (*) precedes the fields that must be updated. To complete this screen, enter/modify the following data:

Field	Description/Explanation
* 1. Site of Activity	Enter the name of the place where an EV will participate in his or her program.
* 2. Site of Activity Address	Enter the physical location of the site. Do not include a post office box number in this address. Note: For an Au Pair, enter the host family's address. For Secondary Students (high school students), enter the address of the high school. Note: The address that prints in the U.S. Address field on the Form DS-2019 is the EV's primary site of activity address.

4. Click one of the following buttons:

Otherwise, click the Return to Exchange Visitor button to view the <i>Exchange Visitor Information</i> screen; some of the information for the site that has been added will be included below the EV's information. Note: Multiple sites of activity may be added for an EV; follow the procedures above to add additional sites of activity.
Reset Values	Click this button to clear all entries on the screen.
Cancel	Click this button to return to the previous page without adding a site of activity.
Print Draft DS-2019 (on the <i>Site of Activity Menu</i> screen [see Exhibit 15])	Click this button to print a draft copy of the Form DS-2019. See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions.

2.6.2.7 Change Primary Site of Activity (EV in Initial Status)

The U.S. address that prints on the EV's Form DS-2019 is the primary site of activity address. When an EV has more than one site of activity, the primary site of activity may be changed.

To change the EV's primary site of activity, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).

3. Click the radio button to the left of the site of activity that should be the primary site of activity.
4. Click the **Change Primary Site of Activity** button. A message displays stating that the primary site of activity has been changed.
5. Click the **Print the Final DS-2019** button on the message screen to print an updated copy of the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. Otherwise, click the **Return to Exchange Visitor** button to return to the *Exchange Visitor Information* screen.

2.6.2.8 Delete Site of Activity (EV in Draft or Initial Status)

All EVs must have at least one site of activity. However, sites of activity may be deleted for an EV whose Form DS-2019 is in Draft or Initial status, and contains more than one site of activity.

To delete a site of activity, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose record is being updated (perform a search for the record or use the **EV Lists** link).

2.7.1.1 Change of Category Request (EV in Active Status)

A change of category request for an EV may be submitted to DoS. Any change must be clearly consistent with and closely related to the participant's original exchange objective and necessary due to unusual or exceptional circumstances. DoS must review and approve this request.

Note: The change of category request, fee, and all supporting documentation must be submitted to DoS prior to the EV's program end date so that the EV does not fall out of status.

To request a change of category for an EV, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose request is being processed (perform a search for the record or use the **EV Lists** link).
2. Click the **Change of Category Request** link on the **Actions** menu. The *Change of Category Request* screen displays. It contains summary information for the selected EV, and the lower half of the screen is used to make the request for change of category. Exhibit 25, Change of Category Request Screen, is an example of the screen.

2.7.1.10 Shorten Program for Exchange Visitor (EV in Active Status)

The Shorten Program for EV option is available when an EV is in Active status. The option is used to reduce the length of the EV's program by changing the program end date. For example, an EV's duration of program participation was originally scheduled to last 36 months. However, the funding for that program has been cut and the program will last only 24 months. Use the Shorten Program for EV option to change the EV's program end date.

To shorten an EV's program, perform the following:

- Failure to maintain a full-time course of study (22 CFR 62.45(d)(6))
- Failure to maintain health insurance
- Involuntary suspension (22 CFR 62.45(b)(3))
- Other
- Violation of Exchange Visitor Program regulation
- Violation of sponsor rules governing the program

To terminate an EV, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV who is being terminated (perform a search for the record or use the **EV Lists** link).

- a. Complete the **Country of Birth** field.

- b. Select an option from the **If the United States or U.S. Territory is chosen...** drop-down list.

Note: Under Regulation 8 CFR 214.5, an EV from a country on the restricted country list may not engage in or seek to obtain training in aviation maintenance, flight training or operations, or nuclear-related studies or training. Therefore, you may not create or update an EV's personal or program information as follows:

- If an EV's COB or COC is on the restricted country list, you may not select or update his or her field of study to training in aviation maintenance, flight training or operations, or nuclear-related studies or training.

5. Click the **Print Final DS-2019** button to print the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions.

2.7.2.2 Dependents (EV in Active Status)

When the EV is in Active status, the *Exchange Visitor Dependent Menu* screen displays summary data for the selected EV, and the **Add Dependent** link. If an EV's spouse wishes to join him or her in the United States, or if the EV has had a baby, the dependent's information must be added to the EV's SEVIS record. See Section 2.5.3, Complete Page 3 of the Form DS-2019—Dependent Information, for instructions on adding dependents to an EV record.

If dependents have been added to the EV's record and the EV is in Active status, the *Exchange Visitor Dependent* screen lists the dependents by SEVIS ID, family and first names, relationship, and gender. For a given dependent, click his or her SEVIS ID (for example, **N0123456789**) to see the complete record for both the dependent and EV. Click one of the following links for the selected dependent:

- **Edit** to modify the dependent's record (See Section 2.6.2.3.3, Edit Dependent Data (EV in Draft or Initial Status), for instructions on editing dependent data.)
- **Terminate** to terminate the dependent's record (See Section 2.7.2.2.1, Terminate Dependent (EV in Active, Inactive, or Transfer Status), for instructions on how to terminate a dependent.)
- **End Status** to end the dependent's status (See Section 2.7.2.2.2, End Status of Dependent (EV in Active or Transfer Status), for instructions on how to end the status of a dependent.)
- **Reprint DS-2019** to reprint the Form DS-2019 (See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.)

- **No Show** to indicate that the dependent is not with the EV and will not be joining the EV (See Section 2.6.2.3.5, No Show—Dependent, for an explanation of No Show and instructions on how to change the dependent's status to No Show.)

2.7.2.2.1 TERMINATE DEPENDENT (EV IN ACTIVE, INACTIVE, OR TRANSFER STATUS)

In SEVIS, termination implies a change from Active or valid program status prior to the EV's program completion. Termination has an **adverse**, or **negative**, affect on the dependent's record. Terminating a dependent has no affect on the EV's record.

The status of a dependent may be terminated prior to the end of the EV's program for the following reasons:

- Child over 21—**Do not** select this option. This option will be removed in a later release of SEVIS.
- Conviction of a crime
- Other
- Unauthorized employment

A dependent may be terminated without terminating an EV. To terminate a dependent, perform the following:

1. Access the record for the dependent who is being terminated (perform a search for the record or use the **EV Lists** link).
2. On the *Exchange Visitor Information—Dependent Information* screen, click the **Terminate** link on the **Actions** menu. Exhibit 34, Terminate Dependent Screen, is an example of the screen that displays. It contains summary data for the EV and the dependent.

2.7.3 Transfer Menu—EV in Active Status

The only valid transfer option is SEVIS to SEVIS. The **SEVIS to SEVIS Transfer** link is used to transfer an EV from a program to another active SEVIS program. The procedure for transferring an EV out of a program is detailed below. See Section 2.9, Transfer Procedures for Receiving Program, for the procedures to complete the transfer of an EV into your program.

Note: An EV may only be transferred to a SEVIS program that is designated for the category in which the EV is currently participating.

2.7.3.1 Transfer an Exchange Visitor (EV in Active Status)

To transfer an EV to another program, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV who is being transferred (perform a search for the record or use the **EV Lists** link).

6. Ensure this is the program the EV is transferring to and click the **Approve Transfer** button. If it is not the correct program sponsor, click the **Cancel** button and repeat Steps 4 through 6.
7. On the transfer approved message screen, click the **View Exchange Visitor** button to return to the transferring EV's record. The EV's status will remain Active until the effective date of transfer. His or her status will change to Transferred on the effective date of transfer listed in SEVIS.

Note: If your program is expecting to receive a transfer EV from another SEVIS program, that EV's name will appear on the *Transferred Status Exchange Visitors and Dependents* EV list with the status of Transferred once the effective date of transfer arrives. Search the list

for the transferred EV at that time and proceed to update the EV's SEVIS record and validate his or her program participation.

2.7.3.2 Cancel Transfer Request (EV in Active Status)

Prior to the effective date of transfer for an EV, an RO or ARO for the program that the EV is transferring from may cancel the transfer request for either of the following reasons:

- Following the submission of a transfer request, the EV decides not to transfer
- The effective date of transfer that was entered on the transfer request in SEVIS must be changed

To cancel an EV's request to transfer, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose transfer request is being canceled (perform a search for the record or use the **EV Lists** link).

WARNING: Be sure this is the correct request to cancel. The transfer request will be canceled immediately.

2. Click the **Cancel Transfer** link on the **Transfer** menu. A message displays stating that the request has been canceled.
3. Click the **Return to Exchange Visitor** button to view the EV's record.

Note: The RO at the transferring-in program will receive email notification that the EV's transfer request has been canceled.

2.8 Exchange Visitor Information Screen—Inactive Status

2.8.1 Correct Minor or Technical Infraction (EV in Inactive Status)

The Correct Minor or Technical Infraction option provides the capability to correct a minor or technical infraction of the regulations for a J-1 within the first 120 days of the infraction. When the EV is in Inactive status, the only technical infraction option available is, "Failure to extend a Form DS-2019 in a timely manner (failure to extend program)."

If the EV did not obtain a program extension within the maximum duration before his or her status changed to Inactive, you have the authority to extend the EV's program using the Correct Minor or Technical Infraction option. The extension may occur if it is less than 121 days after the EV's status changed to Inactive. However, when the current date is between 121 days and 270 days after the EV's status changed to Inactive, you may submit a request for reinstatement to DoS for review and approval. See Section 2.8.2, Reinstatement Request (EV in Inactive Status), for details.

Note: The Correct Minor or Technical Infraction option cannot be used if the EV has already reached the maximum duration of participation for his or her program.

To correct a minor or technical infraction, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose request to correct a minor or technical infraction is being processed (perform a search for the record or use the **EV Lists** link).
2. Click the **Correct Minor or Technical Infraction** link on the **Actions** menu. The *Correct Minor or Technical Infraction* screen displays (see Exhibit 27).
3. Select the reason for the infraction from the drop-down list; this is a required field.
4. Enter the new program end date; this is a required field.
Note: The date should be later than today's date.
5. Enter an explanation in the **Remarks** text box; this is a required field.
6. To complete the process, click the **Correct Minor or Technical Infraction** button. A message displays stating that the EV's record has been successfully updated.
Note: This process sets the EV's status back to Active.
7. On the message screen, click the **Return to Exchange Visitor** button to display the *Exchange Visitor Information* screen.
8. Click the **Reprint DS-2019** link to reprint the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. See Section 2.5.6, Print a Draft of Final Form DS-2019, for printing instructions.

2.8.2 Reinstatement Request (EV in Inactive Status)

Use the Correct Minor or Technical Infraction process to change an EV from Inactive status to Active status as long as regulatory requirements are met and the process is used prior to 121 days after the EV's status changed to Inactive.

When the current date is between 121 days and 270 days after the EV's status changed to Inactive, you may submit a request for reinstatement to DoS for review and approval (22 CFR 62.45). Reinstatement cannot be requested when the current date is greater than 270 days after the status changed to Inactive. In that case, the EV is in Inactive status and the EV's information cannot be updated.

To reinstate an EV whose status has been Inactive for at least 121 days and not more than 270 days, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose reinstatement request is being submitted (perform a search for the record or use the **EV Lists** link).
2. Click the **Reinstatement Request** link on the **Actions** menu. The *Reinstatement Request* screen displays.
3. Change the program end date.
4. Enter an explanation for the request in the **Remarks** text box.

5. Click the **Submit Reinstatement** button. A message displays stating that the request has been submitted to SEVIS.
6. Remit a non-refundable fee of \$198.00, drawn on a bank or other institution located in the United States, and made payable in U.S. currency to the U.S. Department of State (22 CFR 62.90). This request will not be processed until the fee and supporting documentation have been received by DoS. Mail the required fee, EV's full name and SEVIS ID, and supporting documentation to:

Office of Exchange Coordination and Designation
Bureau of Educational and Cultural Affairs
U.S. Department of State
301 4th St. S.W., SA-44, Room 734
Washington, DC 20547

DoS must review and approve or deny this request. The following outcomes are possible:

- **Reinstatement Request Approved**—The submitter of the request will receive email notification of the approval.

Note: Following approval of the reinstatement request, an RO or ARO must print the Form DS-2019, sign it in **blue** ink, and provide it to the EV and dependents, if any. Access the *Exchange Visitor Information* screen for the EV and click the **Reprint DS-2019** link. On the *Reprint DS-2019* screen, select the reprint reason “Reinstate an On-going program.” (See Section 2.5.8, Reprint a Form DS-2019, for printing instructions.)
- **Additional Information Required**—The submitter of this request will receive email notification and a mailed letter or fax indicating that additional information must be provided so that DoS may continue processing the request.
- **Reinstatement Request Denied**—The submitter of this request will receive notification via a mailed letter regarding the denial.

2.8.3 Cancel Reinstatement Request (EV in Inactive Status)

After a reinstatement request has been submitted to DoS for review, that request may be canceled before it is processed by DoS.

Note: This option is only available following the submission of a reinstatement request in SEVIS.

To cancel a reinstatement request, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose request is being canceled (perform a search for the record or use the **EV Lists** link).
2. Click the **Cancel Reinstatement** link on the **Actions** menu to display the *Cancel Reinstatement Request* screen.
3. Enter optional comments in the **Remarks** text box.

4. Click the **Cancel Reinstatement Request** button. The EV's record will remain in Inactive status.

2.8.4 Terminate Exchange Visitor (EV in Inactive Status)

See Section 2.7.1.11, Terminate Exchange Visitor (EV in Active or Inactive Status), for instructions on terminating an EV or Section 2.7.2.2.1, Terminate Dependent (EV in Active, Inactive, or Transfer Status), for instructions on terminating a dependent separately from an EV.

2.9 Transfer Procedures for Receiving Program

When an EV transfers to your program, his or her record in SEVIS must be updated and validated no later than 30 days after the effective date of transfer identified in SEVIS.

Validation of program participation requires the program sponsor to acknowledge that the EV has reported as required, and to collect the EV's current U.S. address (actual physical location where the EV will reside while in the United States) by updating the EV's record in SEVIS.

Updating the EV's record and validation of program participation may take place at any time after the effective date of transfer. Failure to validate the transfer EV's program participation no later than 30 days past the effective date of transfer identified in SEVIS will result in SEVIS changing the EV's status to No Show.

Note: When your program is expecting to receive a transfer EV from another SEVIS program, that EV's name will display on the *All Exchange Visitors and Dependents* and the *Transferred Status Exchange Visitors and Dependents* EV lists after the effective date of transfer identified in SEVIS. This EV's status changes to Transferred once the effective date of transfer arrives.

Detailed instructions for completing the transfer process for an EV transferring into your program are contained in the following sections:

- 2.9.1 Transfer—Exchange Visitor Personal Information and U.S. Address
- 2.9.2 Transfer—Add Site of Activity
- 2.9.3 Transfer—Add Dependent/Edit Dependent Data
- 2.9.4 Transfer—Financial Information
- 2.9.5 Validate the EV's Program Participation

2.9.1 Transfer—Exchange Visitor Personal Information and U. S. Address

When an EV transfers into your program, his or her Form DS-2019 must be updated in SEVIS before validating his or her program participation. To update the Form, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose personal information is being updated (perform a search for the record or use the **EV Lists** link).
2. Click the **Edit DS-2019** link on the **Actions** menu to begin updating the EV's Form. Exhibit 39, Exchange Visitor Personal Information Screen for Transfer EV, is an example of the screen that displays.

2.9.2 Transfer—Add Site of Activity

Page 2 of the Form DS-2019, *Site of Activity Menu* (Exhibit 15), is used to collect program information for the EV. It provides a summary of the information entered for the EV, and an option for adding sites of activity. All EVs must have at least one site of activity.

To enter information about the EV's site of activity, perform the following:

1. Click the **Add Activity** link in the lower-left part of the *Site of Activity Menu* screen. The system displays the *Exchange Visitor—Add Site of Activity* screen.
2. In the **Site of Activity** field, enter the name of the place where the EV will participate in his or her program.
3. In the **Site of Activity Address** fields, enter the physical location of the site. Do not include post office box numbers in this address.

Note: For an Au Pair, enter the host family's address. For Secondary Students (high school students), enter the address of the high school.

4. Click the **Add Site of Activity** button to save the data entered for this EV. The system displays the *Site of Activity Menu* screen. Summary information for the site that has been added will be included below the EV's personal information.

Note: Multiple sites of activity may be added for an EV; follow the procedures above to add more sites of activity.

5. If multiple sites of activity have been added to the EV's record, perform the following to change the primary site of activity:
 - a. Click the radio button to the left of the site that will be the primary site of activity for the EV.
 - b. Click the **Change Site of Activity** button, and a message will display stating that the primary site of activity has been changed.
 - c. Click **OK** and the *Site of Activity Menu* screen will display.
6. Click the **Next** button to advance to the next page of the Form.

Note: See Section 2.7.2.4.1, Edit Site of Activity (EV in Active Status or Transfer Status), for detailed instructions on how to edit an EV's site of activity.

2.9.3 Transfer—Add Dependent/Edit Dependent Data

Page 3 of the Form DS-2019, *Exchange Visitor Dependent Menu* screen, contains summary information for the EV and dependents, if any. It also contains a link to add dependents. Procedures for both options are described in the next two sections.

Note: Only the data for the spouse and children of an EV coming to the United States on J-2 visas are entered into SEVIS. If the spouse and child dependents plan to enter the United States on other types of visas, do not enter their information in SEVIS.

2.9.3.1 Transfer—Add Dependent

Note: If both a husband and wife are entering the United States on J-1 visas, add the dependent child's information to only one SEVIS record (Form DS-2019). Do not add the dependent child's information to both parents' records/Forms. Doing so will give the dependent child two SEVIS records.

To add a dependent for an EV transferring into your program, perform the following:

1. Click the **Add Dependent** link on the *Exchange Visitor Dependent Menu* screen.
2. Below is a list with explanations of the fields and sections on the *Exchange Visitor Information—Add Dependent* screen (Exhibit 18). An asterisk (*) precedes the fields and sections that must be completed. To complete this screen, enter the following data:

2.9.5 Validate the EV's Program Participation (EV in Transfer Status)

When an EV transfers to your program, his or her record in SEVIS must be validated no later than 30 days after the effective date of transfer identified in SEVIS. Validation of program participation requires the program sponsor to acknowledge that the EV has reported as required, and to collect the EV's current U.S. address (actual physical location where the EV will reside while in the United States).

Validation of program participation may take place at any time after the effective date of transfer. Fifteen days following the effective date of transfer, you will receive a reminder to validate the EV's program participation. You will also receive a reminder 25 days following the effective date of transfer. Failure to validate the transfer EV's participation in your program 30 days after the effective date of transfer identified in SEVIS will result in SEVIS changing the status of the EV and dependents, if any, to No Show.

Note: If your program is expecting to receive a transfer EV from another SEVIS program, that EV's name will display in the *All Exchange Visitors and Dependents* and the *Transferred Status Exchange Visitors and Dependents* EV lists with the status of Transferred once the effective date of transfer arrives.

Validating a transfer EV's participation is a two-step process. His or her SEVIS record must first be updated, and then validated. To update the record and validate the participation of an EV transferring into your program, perform the following:

1. Access the *Exchange Visitor Information* screen for the EV whose program participation is being validated (perform a search for the record or use the **EV Lists** link).
2. Click the **Edit DS-2019** link on the **Edits** menu and update the EV's data (see Section 2.9.1 through Section 2.9.4 for instructions).

3. Click the **Submit DS-2019** button to submit the data to SEVIS. A message displays stating that the data have been successfully submitted to SEVIS.

Note: The EV is not in Active status. You must validate the EV's program participation; continue with the following steps to validate the EV.

4. On the message screen, click Print **Final DS-2019** button to print a final copy of the Form, sign it in **blue** ink, and provide it to the EV and dependents, if any. (See Section 2.5.6, Print a Draft or Final Form DS-2019, for printing instructions.)

Note: The current U.S. address (where the EV will reside) is collected in SEVIS but does not print on the Form DS-2019. When the Form is printed, the address of the primary site of activity for the EV will print in the **U.S. Address** field on the Form. If the EV has multiple sites of activity, the selected site of activity (radio button has been clicked) will print on the Form.

5. After printing the Form, you must validate the EV's participation in your program. Access the *Exchange Visitor Information* screen for the EV whose program participation is being validated (perform a search for the record or use the **EV Lists** link).
6. On the *Exchange Visitor Information* screen, click the **Validate Program Participation** link to display the *Validate Program* screen.
7. Ensure the accuracy of the current U.S. address (residence) for this EV and make corrections as necessary.

Note: When entering data for Secondary Students (high school students), enter the name of the host family in the **Address 1** field and enter the street address for this residence in the **Address 2** field. For an Au Pair, enter the host family's address.

Note: Passport, visa, and POE information may be received from other systems. However, if the fields are not filled in, the following data may be entered, if available:

- Passport Number
- Passport Issuing Country
- Passport Expiration Date
- Visa Number
- Post/Country of Visa Issuance
- Visa Expiration Date

- Visa Issue Date
- Admission Number
- Port of Entry
- Date of Entry

8. Click the **Validate Program** button. The *Listing of Programs* screen displays, and the status of the EV and dependents (if any) is now Active.

2.10 SEVIS Correction Processes

Two different types of corrections may be requested for EV and dependent SEVIS records:

- **30-Day Correction**—When this option is used, EV and/or dependent SEVIS records are corrected immediately.
- **Reinstatement – Update SEVIS Status**—When this option is used, DoS must review and process the request.

These options are discussed in detail in the following sections.

2.10.1 30-Day Correction Period for SEVIS Status

If the EV's SEVIS status has changed to Active, Invalid, or No Show within the past 30 days, the Correct SEVIS Status option may be used to change the EV's status from:

- Active to Initial
- Invalid to Initial
- Invalid to Active
- No Show to Active

The EV's SEVIS status will change immediately when using this function. Also, if the EV's and dependent's status changed to Active, Invalid, or No Show on the same date, when the EV's status is corrected using this option, the dependent's status will change to the same SEVIS status as the EV. For example, the EV and dependent's SEVIS status changed to Invalid on the same date and the Correct SEVIS Status option is used to change the EV's status to Active, the dependent's SEVIS status will change to Active at the same time.

Exhibit 40, Correct SEVIS Status Screen, is an example of the screen used to change an EV's status.

- Is currently Invalid, No Show, or Terminated
- Changed to Invalid, No Show, or Terminated within the past 30 days
- Does not match the status of the EV

The dependent's SEVIS status will change immediately when using this function.

2.10.3 Reinstatement – Update SEVIS Status Request

If it is more than 30 days and less than 271 days since the SEVIS status of the EV changed to Active, Invalid, or No Show, a Reinstatement - Update SEVIS Status request may be submitted to the DoS to change the status from:

- Active to Initial
- Invalid to Initial
- Invalid to Active
- No Show to Active

The Reinstatement – Update SEVIS Status option will also be available on the *Exchange Visitor Information* screen to submit a request to DoS to change an EV's SEVIS status from Terminated to Active. This option will immediately become available when the EV's SEVIS status is changed to Terminated. The option will remain available for up to 270 days following the date the EV's status changed to Terminated. A change in the status of a SEVIS record from Terminated to Active will always require the approval of DoS and therefore, must be processed as a "Reinstatement - Update SEVIS Status" request.

If the dependent's status changed separately from the EV's status, approval of this request will not affect the dependent's status. For example, if the dependent's status changed to No Show and, the next day, the EV's status changed to No Show, approval of the Reinstatement - Update SEVIS Status request will only affect the EV's status. The dependent's SEVIS status will remain No Show.

Requests may be submitted to DoS to change the SEVIS status of a dependent whose status changed to Invalid, No Show, or Terminated separately from the EV's status. See Section 2.10.4, Reinstatement - Update SEVIS Status for Dependent, for instructions on submitting a Reinstatement - Update SEVIS Status request for a dependent.

Note: A non-refundable fee of \$198.00 is required when submitting a Reinstatement - Update SEVIS Status request for an EV. DoS will not begin to process the request until the required fee and supporting documentation have been received.

Exhibit 41, Reinstatement - Update SEVIS Status for Exchange Visitor Screen, is an example of the screen used to submit a Reinstatement – Update SEVIS Status request to DoS.

2.11 Alerts

Alerts are notices to users identifying tasks that need to be completed in SEVIS. In most cases, these alerts are indicators that, according to the information currently in the system, the EV's status will change (in many cases, from Active to Terminated or Completed) if some type of action or update is not taken by an RO or ARO within a certain number of days. If no action is taken, the system will automatically take action.

Note: When there is an alert for a program, the ***Alerts** link will display on the *Listing of Programs* screen. SEVIS does not send email notification for alerts. You must access SEVIS to view and process alerts, if necessary.

Exhibit 42, Listing of Programs Screen—Alerts Link, shows the location of the ***Alerts** link on the screen. If there are no alerts for a program, the ***Alerts** link will not display on the *Listing of Programs* screen.

To view alerts available for a specific program, perform the following:

1. On the *Listing of Programs* screen, click the ***Alerts** link for a specific program. The list of alerts for that program displays. Each row in the list represents a SEVIS situation that requires the attention of the RO or ARO. For example, **25 Days Beyond Effective Date of Transfer** indicates that there are EV records in Transfer status and the current date is 25 days or more past the their effective date of transfer. These records must be validated if the EV has arrived and is participating in his or her program. Otherwise, the system will automatically set the status of the EV and dependents, if any, to No Show 30 days after the effective date of transfer listed in SEVIS.
2. Click an alert to see the specific list of records that require processing.
3. Click the EV's or dependent's SEVIS ID or name link to access his or her record.
4. Process the record. For example, for the **25 Days Beyond Effective Date of Transfer** alert, click the EV's name and select the **Edit DS-2019** link on the *Exchange Visitor Information* screen. **APPENDIX C—STATUS VALUES FOR EXCHANGE VISITORS AND
DEPENDENTS**

Status Values for Exchange Visitors and Dependents

Exhibit C-1, Status Values for Exchange Visitors and Dependents, explains each status that EVs and their dependents may have in SEVIS.

Exhibit C-1: Status Values for Exchange Visitors and Dependents

SEVIS Status	Description/Explanation
Saved/Draft	EV and/or dependent records that have been saved, but not submitted to the SEVIS database. These records are considered Draft records. An RO or ARO may review, edit, and submit a saved/draft record to SEVIS.
Initial	<p>EV and/or dependent records that have been created and submitted to SEVIS (saved to the SEVIS database), but the EV's program has not been validated by the program sponsor.</p> <p>Validation is the process of updating the record of an EV who is in Initial status in SEVIS to show that the EV:</p> <ul style="list-style-type: none">• Has actually arrived at the site of activity in the United States identified by the program sponsor• Is participating in his or her exchange program <p>Note: Failure to validate an EV's participation within 30 days of the program start date listed in SEVIS will result in cancellation of the EV's record in SEVIS, as stipulated in the Exchange Visitor Program regulations (22 CFR 62).</p>
Active	<p>The sponsor has validated an EV's participation in his or her program (by entering the current U.S. address for the EV). The current U.S. address is the location where the EV will live while participating in his or her program. The current U.S. address is collected in SEVIS but does not print on the Form DS-2019. When the Form DS-2019 is printed from SEVIS, the address of the primary site of activity entered in SEVIS for the EV will print in the U.S. Address field on the Form. Following the validation of the EV in SEVIS, the EV is considered to be in Active or valid program status.</p> <p>Note: An RO or ARO may use the Correct Minor or Technical Infraction process to change an EV from Inactive status to Active status if today's date is not greater than 120 days beyond the EV's program end date that is identified in SEVIS. When today's date is greater than 120 days and less than 270 days after the EV's program end date, the RO or ARO must submit a reinstatement request to DoS for review and approval (22 CFR 62.45). Reinstatement cannot occur when the current date is greater than 270 days after the EV's program end date identified in SEVIS.</p>

SEVIS Status	Description/Explanation
Terminated	<p>In SEVIS, the program sponsor has terminated the EV's participation; termination implies a change from Active or valid program status prior to program completion. Termination has an adverse, or negative, affect on the EV's record and on the record of each dependent of the EV. Terminated EVs have no benefits and cannot apply for an extension, reinstatement, or change of category.</p> <p>Note: Dependent records are automatically terminated when the EV's participation is terminated. Also, an RO or ARO may terminate the status of a dependent prior to the end of the EV's program for reasons such as the conviction of a crime or violation of the Exchange Visitor Program regulations.</p>
Transferred (SEVIS to SEVIS)	<p>The EV has transferred between two program sponsors authorized access to SEVIS.</p> <p>Note: If a program is expecting to receive a transfer EV from another SEVIS program, this EV's name will display on the <i>All Exchange Visitors and Dependents</i> and <i>Transferred Status Exchange Visitors and Dependents</i> EV lists with the status of Transferred once the effective date of the transfer is reached. To view this list, click the EV Lists link to the right of the appropriate program on the <i>Listing of Programs</i> screen, the first screen that displays when logged into SEVIS. Then select the appropriate link on the <i>Exchange Visitors and Dependents Menu</i> screen.</p>
Transferred to a non-SEVIS Sponsor	<p>The ability to transfer EVs to a non-SEVIS program is no longer available. However, there may be EVs who will always have this status; they transferred prior to the date mandated for enrollment of all Exchange Visitor Programs in SEVIS.</p>
Inactive	<p>An EV and/or dependent can become Inactive (out of valid program status) for the following reasons:</p> <ul style="list-style-type: none"> • The RO or ARO ends the program of an EV (for example, the EV completes his or her program early, or withdraws from the program). The status of the EV's dependents will also be set to Inactive when the program sponsor takes action on the EV. • The RO or ARO ends the status of the spouse or dependent because the accompanying spouse got divorced from the EV, or the spouse and/or dependent died. • The dependent's status is automatically ended in SEVIS on the day the dependent turns 21 years of age.

SEVIS Status	Description/Explanation
Invalid	<p>An EV's status is Invalid when:</p> <ul style="list-style-type: none">• He or she does not use the Form DS-2019 issued by a program sponsor to obtain a visa.• He or she uses the Form DS-2019 to obtain a visa but does not enter the United States through a port of entry within 30 days of the program start date identified in SEVIS.• An RO or ARO sets the EV's record to Invalid status. <p>Note: Dependent records are automatically set to Invalid when the EV's SEVIS status is set to Invalid.</p>
No Show	<p>The EV's program participation has not been validated in SEVIS.</p> <ul style="list-style-type: none">• It is 30 days after the program start date listed on the Form DS-2019 that was issued to an EV to begin a new program and the EV has entered the United States through a port of entry but has not reported to the program sponsor.• In a transfer situation, the EV has not been validated in SEVIS 30 days after the effective date of transfer identified in SEVIS.• When a dependent is in Initial status, an RO or ARO may set the dependent's status to No Show. <p>Note: Dependent records are automatically set to No Show when the EV's record is set to No Show.</p>
